

**BEHDAD PLAST**  
POLYMER CO

**COMPANY  
PROFILE**

*"Behdadplast- The best Gift to the Plastics Industry"*

At **Behdadplast**, we don't just trade petrochemicals – we deliver insight, trust, and value across global polymer supply chains.

Founded in 2020, and inspired by the Persian word "Behdad", meaning "The Best Gift", our mission is to be exactly that for the plastics industry.

We are a **strategic** supplier and commercial representative, specializing in polyethylene (HDPE, LLDPE, LDPE), and polyethylene compounds, with a strong focus on market intelligence, consulting, and customized sourcing solutions includes.

We are **not a manufacturer**, instead, we operate:

- **the** representative of leading petrochemical producers in Iran
- The local sourcing partner and representative of international clients
- A market consultant, providing real-time analysis on pricing, supply trends, and optimal buying moments, and reduce risk

Our strength lies in data-driven decision-making and deep regional intelligence. With real-time access to production and pricing insights from Iran, Saudi Arabia, Russia, and across the Mid East, guiding clients to make confident, well-timed decisions that increase profitability and reduce risk.

## OUR MISSION

To simplify, **strengthen**, and secure polymer sourcing with transparency, insight, and agility.

## OUR VISION

To become the most trusted intelligence-driven supplier in region, where petrochemical trade is no longer transactional – but strategic, informed, and collaborative.

## OUR PETROCHEMICAL PARTNERS

Reliable Supply from Iran's Leading Producers

**Shazand Petrochemical**

High-quality LLDPE and Pipe-grade HDPE

**Arva Sasol Petrochemical**

Premium HDPE film and blow molding grades

**Jam Petrochemical**

LLDPE film injection and

**Bandar Imam Petrochemical**

Pipe-grade HDPE and LLDPE

**Amir Kabir Petrochemical**

LLDPE film and blow molding grades

**Maroon Petrochemical**

Reliable HDPE blow molding grade

**Tabritz Petrochemical**

Blow molding HDPE

Behdadplast works closely with top petrochemical plants to ensure quality, consistency and on-time delivery for every shipment.

# BEHDADPLAST

## OUR PRODUCTS

### LLDPE

Linear low-density polyethylene. All emmociized flexibility and toughness. Applications in freing-films, and geomembranees.

### LDPE

Low-density polyethylene; excellent processability and clarity  
Include plastic bags, shrink wrap, and containers.

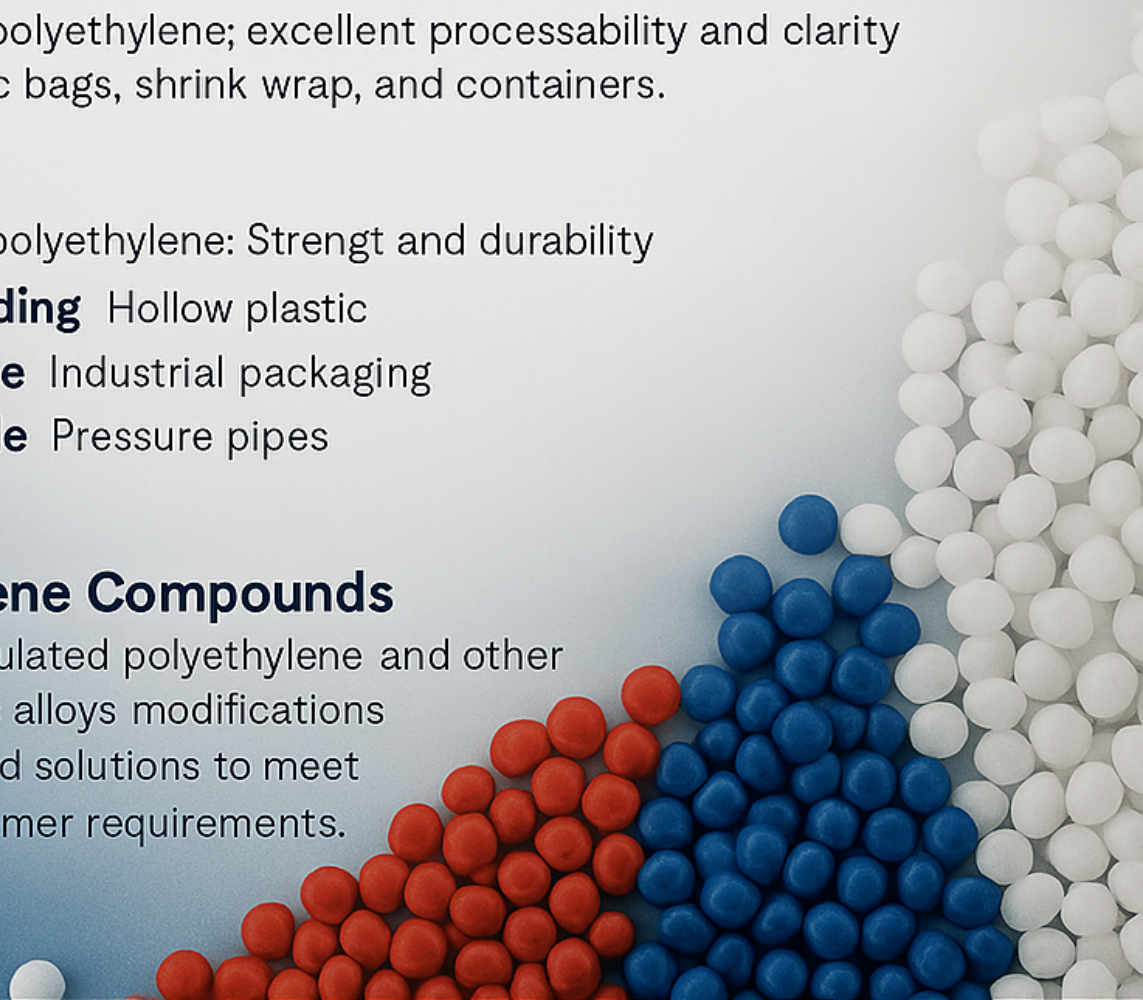

### HDPE

High-density polyethylene: Strengt and durability

- **Blow Molding** Hollow plastic
- **Film Grade** Industrial packaging
- **Pipe Grade** Pressure pipes
- **Injection**

### Polyethylene Compounds

Custom-formulated polyethylene and other thermoplastic alloys modifications for customized solutions to meet specific customer requirements.

## LOGISTICS & PACKAGING

Engineered for Efficiency. Delivered with Precision.

Global trade demands more than just quality materials—it requires seamless execution. Our logistics framework designed to optimize delivery lead times, ensure packaging integrity, and support complex international shipments.

### PACKAGING SOLUTIONS:

- 25 kg PE-lined bags.
- Big bags / Jumbo sacks (up to 1 ton),
- Palletized and shrink-wrapped loads.

### SHIPPING METHODS:

- Road transport
- Rail freight (CI5 & Central Alsa)
- Ocean freight (20FT/40FT containers)

We work with licensed freight forwarders and clearance agents to provide end-to-end service—from plant gate to your
